# Affan Minhas

Computer System Engineer | Flutter Developer @Blocship.io | Flutter  
Flow Developer | Top Rated Upwork  
Karāchi, Sindh, Pakistan

## Summary

Hello, I'm Affan Minhas!

I'm an Engineer completed a degree in Computer System Engineering from NED University. My academic journey has provided me with a strong foundation in computer science and engineering principles, which I'm eager to apply to real-world challenges.

Outside of my academic journey, I'm passionate about mobile app development. Currently, I'm proud to be a part of the talented team at Blocship, where I work as a Flutter Mobile App Developer. From designing sleek user interfaces to crafting robust backend systems, I thrive on the end-to-end process of bringing innovative ideas to life.

My skills extend beyond coding; I've also gained valuable experience in Flutter Flow, a no-code platform. Using this platform, I've been able to bring app ideas to life and oversee the entire development process, from concept to completion.

Achieving the goal of creating apps from scratch and seeing them thrive in the real world has been an incredibly fulfilling experience for me.

I'm not just scratching the surface; I deeply understand the intricacies of Flutter Flow and leverage its capabilities to build innovative and user-friendly applications.

Let's connect! Whether you want to discuss exciting opportunities, share insights, or simply have a chat about the world of app development, I'm always open to connecting with fellow professionals and enthusiasts in the field.

You can shoot me a message through WhatsApp:
